

Indiana Department of Education
SUPPORTING STUDENT SUCCESS

MEMORANDUM

TO: Superintendents

FROM: Dr. Tony Bennett, Superintendent of Public Instruction

DATE: June 25, 2010

SUBJECT: School Board Development Services & Technical Information

It was brought to our attention that there are some concerns regarding the attached information that was distributed to school board members on Friday, June 18. We are very excited about offering this service to interested parties who believe board development provided by Dr. Dennis Brooks would be beneficial to them.

The optional training will occur in cooperation with the superintendent and school board members who will control and set the agenda. Dr. Brooks has the advantage of experience in the field and unfiltered knowledge of IDOE initiatives. We hope that you will take advantage of this service and think you will find it beneficial to your school community.

Please contact Dr. Brooks via email, dbrooks@doe.in.gov or phone, 317-234-4701 if you are interested in discussing this board development service or if you have concerns. For more information, please see the attached flyer.
